

FOR IMMEDIATE RELEASE:

## **The Evolution of Tutoring**

*Linkonlearning's Online Education Program*

**NEWMARKET, Ontario** (December 9, 2002)—Parents have a new place to turn to when their child is struggling in school and need extra help. Linkonlearning offers an Internet-based program for students who need additional or remedial help from JK to Grade 8.

Linkonlearning offers students access to over 10,000 lessons, spread over nine courses and three levels. Each lesson is fully interactive and auditory in order to accommodate students' different learning styles. Lessons are aligned with national goals and standards, and written by certified teachers in the following curriculum areas: Language Arts, Spelling, Reading, Writing, Math, Social Studies, Science, History and Geography.

“As a parent, I think there is great value in the program. From my experience, I have paid \$54 for one hour of extra education. I think the site is wonderful, because we can do it at our own pace and make sure my child understands everything instead of running with the clock. Also, the site covers all subjects whereas the other tutoring places do just one thing at a time and ask a fortune. So keep up the good work,” said parent C. Krupa.

Parents should think of Linkonlearning as their child's private tutor, available twenty-four hours a day and just a click away. Each child has their own classroom, and can access the library and recess areas. Linkonlearning's customizable program allows parents to enrol their child in the appropriate grade and level for each subject.

In addition, instead of receiving a report card every few months, Linkonlearning provides a report card, which allows parents to understand their child's development on a day-to-day basis. Parents understanding their child's strengths and weaknesses in combination with allowing children to learn at their own pace is Linkonlearning's formula for academic success.

“I have noticed that my son is not struggling in school as much as he did in the past years, and I give credit to your program for that. I do see it as a very valuable program and I have told my friends about it,” said parent J. Wright.

For \$34.95 a month, each student has unlimited access to all courses and grades, our library and recess areas, as well as live chat with fellow students and teachers.

-more-

Linkonlearning is accepting new students effective December 9, 2002.

Linkonlearning's ([www.linkonlearning.com](http://www.linkonlearning.com)) online program offers curriculum-based education for children from JK to Grade 8. A certified school in Ontario since October 2002, Linkonlearning helps teachers and primary caregivers to invest in their child's future, by providing the tools and programs children need to succeed. Linkonlearning's team of teachers, developers, designers and programmers share a common interest in the future of education, and believe that technology can play a positive role in its evolution.
